

**Metropolitan Eyewear
Style 8296**

With style 8296, Metropolitan introduces a confident women's frame with a distinct design language. The softly squared shape made from handcrafted acetate features a striking rear facet and varied rim thicknesses for visual depth. Deep-set titanium temples emphasize its fashion-forward appeal, while the OBE spring hinge ensures lasting comfort. A style for women who value material quality and contemporary design – bold, clear, and uncompromising.

Metropolitan Eyewear is a collection for urban trendsetters and exhibits sheer style and clear lines. For people who are completely in sync with the trends and who have both feet on the ground. They don't ask what's nice, what's right or what's of the highest quality. They just know.
