

**Metropolitan Eyewear
Style 8297**

With style 8297, Metropolitan focuses on refined craftsmanship and subtle sophistication. The women's frame made from handcrafted acetate features a faceted, softly rounded lens shape with fashionably deep-set temples. The highlight: an exclusively designed temple inlay that subtly shimmers through transparent colors, adding dimensional depth. A feminine design with a clean visual language – for wearers with an eye for thoughtful detail.

Metropolitan Eyewear is a collection for urban trendsetters and exhibits sheer style and clear lines. For people who are completely in sync with the trends and who have both feet on the ground. They don't ask what's nice, what's right or what's of the highest quality. They just know.
